Old Orchard Lane
Route #4, Box 102
Lockport, IL 60441

SUBJECT: Union Oil Company, Toxic Grading Project
and Tank Farm
Du Page Township, Will County

Dear Mesdames:

This is in response to your letter of April 29, 1981 requesting information on soil and bedrock conditions in Sections 25 and 26, T. 37 N., R. 10 E., Will County, Illinois.

Under separate cover you will be receiving a copy of ISGS Circular 460 which describes general geologic conditions in Chicago and the surrounding vicinity, including your area of interest. Also you will be receiving copies of three maps of the western portion of Will County which were prepared for the Northeastern Illinois Planning Commission: Plate 1, Geologic Materials to a depth of 20 feet; Plate 4a, Conditions for the burial of waste (including sanitary landfills); and Plate 4b, Conditions for the surface spreading of wastes. Two of these maps have been previously used for a different purpose and you should ignore the red marks which call attention to an area approximately 10 miles southwest of your homes.

If, after examining this material, you have additional questions, please do not hesitate to contact this office.

Very truly yours,

William G. Dixon, Jr.
Associate Geologist
